iDC'S 4gov® Web-based Financial Resource Management Software Chosen by the
Redevelopment Authority of Milwaukee

CHICAGO, ILLINOIS – December 3, 2007 -

The Redevelopment Authority of Milwaukee (RACM) has selected iDC's e-government suite of applications allowing them on-demand, secure financial management from any Web browser. With this hosted solution, RACM receives a subscription model at a fixed monthly cost available 24/7/365 that includes system maintenance, backups, security upgrades and disaster recovery.

As a leader in the field of economic development for the City, RACM is particularly interested in the features provided by iDC's Management Accounting module. This application will allow them to keep track of their Brownfields Program grants over multiple fiscal years. It will also permit the maintenance of revenue and cost ledgers for specific activities for any program or project and serve as the basis for planning, budgeting and evaluating activities. The program accounting application of **4gov** will also provide the statistical information necessary to make certain their program dollars have the most impact and enable them to achieve their goals of making sound planning and investment decisions that serve the needs of local residents, workers and businesses.

About The Redevelopment Authority of the City of Milwaukee

The mission of the Redevelopment Authority is to eliminate blighting conditions that inhibit neighborhood reinvestment, to foster and promote business expansion and job creation, and to encourage high quality sustainable development. To fulfill this mission RACM works with partners throughout the region to encourage an economic climate that stimulates investment, builds wealth and strengthens the urban environment. Started in 1959, the overall goal of the Authority continues to be to improve on the city's competitive advantages including its built environment, natural setting, diversity and status as a center of commerce and culture.

About iDC

iDC is a trusted financial management software solutions partner for government and nonprofit organizations. Customers range in size from small communities to national governments and include departments of state, cities, counties, airports, park districts and special agencies nationwide as well as NFPs and religious organizations. iDC's SaaS web-based, scalable products are designed for rapid implementation and seamless integration, and can be tailored to fit specific needs. They enhance emergency preparedness, government continuity and disaster recovery. **4gov** software is available as a stand-alone product or fully-hosted outsourced service. iDC recently gained national recognition as recipient of the NAWBO/Wells Fargo Trailblazer Award for Technology Innovation and the Torch Award for Marketplace Ethics from the Better Business Bureau of Northern Illinois. Founded in 1975, iDC is privately owned and headquartered in Chicago.
