iDC'S 4gov® VERSION 9 DEBUTS IN NEW MEXICO WITH AN INSTALLATION AT THE CITY OF SOCORRO

CHICAGO, ILLINOIS – December 18, 2006 - To account for the present and help manage the future, the City of Socorro has installed the **4gov®** ERP System from iDC as an integrated solution for Financial Management. It allows the City to know where they stand on budgets, to set and track performance benchmarks, and to spot trends and issues before they become problems. And, in keeping with the Mayor's personal and public goal to continuously improve the quality of life in Socorro, the system will give citizens more of a voice in and a stronger connection to government.

The City has recently taken steps to ensure a vibrant economic future by establishing positions within the government to facilitate new development. The City is well positioned to take advantage of the growing prominence of the Central Rio Grande Valley and is concentrating on the area's strengths by implementing projects for the economic good of the community and benefit of residents. To this end, **4gov** will enable the City to deliver real results now and allow for easy expansion of functions, devices and technology in the future.

About the City of Socorro

The City of Socorro is situated in central New Mexico with a population of about 9,500. It is home to New Mexico Institute of Mining and Technology, Energetic Materials Research and Testing Center, and New Mexico State Fire Academy along with numerous wildlife refuges and historical mission churches.

About iDC

iDC is a trusted financial management software solutions partner for government and nonprofit organizations. Customers range in size from small communities to national governments and include departments of state, cities, counties, airports, park districts and special agencies nationwide as well as NFPs and religious organizations. iDC's web-based, scalable products are designed for rapid implementation and seamless integration, and can be tailored to fit specific needs. They enhance emergency preparedness, government continuity and disaster recovery. **4gov** software is available as a stand-alone product or fully-hosted outsourced service. iDC recently gained national recognition as recipient of the NAWBO/Wells Fargo Trailblazer Award for Technology Innovation and the Torch Award for Marketplace Ethics from the Better Business Bureau of Northern Illinois. Founded in 1975, iDC is privately owned and headquartered in Chicago.
